

Who We Are

Encourage Capital is an innovative investment firm that seeks to change the way investment capital is used to solve critical environmental and social problems. We are building a community of investors, foundations, market-leading companies and non-profits to deploy private capital into systemic solutions to the world's most pressing challenges. We believe we can generate both compelling financial returns and social and environmental impact for our investors.

Summer Opportunities

Encourage Capital is pleased to offer internships in the summer of 2018 to students looking to explore the world of impact investing. Please see internship descriptions below and submit to jobs@encouragecapital.com a copy of your resume along with a short cover letter (less than one page) indicating in which roles you are potentially interested and your qualification for those roles.
